But in such a spirit, he has just fallen sick of his. These two tormented characters, her for her mental illness and for believing that she did not do everything she was in her hands to prevent 11 attacks from happening with the torture she was subjected to during the years when he was held prisoner in Iraq, they find a way to understand each other despite the circumstances and give exactly what they need. The languages say that during this season, they didn't citically appear together... That's right, it is. © rie had a decent season finale.
