had both audition, but only hired Cullen, while preferring Hugo Weaving as Megatron.[17] However, Welker still got to voice Megatron (alongside Cullen as prime) in the video game adaption of the movie, Transformers The Game, as well as in Beginnings, an animated (sort of) version of IDW's prequel comic mini-series that was available on a Wal*Mart exclusive bonus disc included with the movie DVD. He fights Bonecrusher and eventually kills him. Ratchet: That's suicide! The Cube is raw power—it could destroy you both. This was either a continuity error or a ham-handed attempt to make the audience realise the attackers in both photos are one and the same by making the photos look similar. After abducting Sam and Mikaela, Agent Simmons uses a device to monitor Sam's pupil dilation while interrogating him in the truck. Starscream hides among a raptor squadron, destroying three fighters before being chased away. Prime's line "...one shall stand; one shall stand; one shall stand; one shall stand the truck. though Hasbro developed a toy based on the designs for the character, Arcee was dropped from the script and replaced with Ironhide: Kurtzman and Orci didn't want to spend time explaining the purpose of "female" Autobots,[35] and Michael Bay considered her too small as compared to the rest of the Autobots.[36] Despite what fans commonly assume, however, the scene during the final battle in Mission City where Lennox uses an abandoned motorcycle for his assault on Blackout wasn't added to the script; however, had she not been dropped, she would have probably been that motorcycle.[37] Other Autobot characters considered by Orci and Kurtzman were Hot Rod, Wheeljack and Prowl.[38] The last was eventually dropped because Orci and Kurtzman preferred the idea of "a Decepticon in disguise as a police vehicle".[39] Blackout was conceived as Vortex—matching Brawl as a character based on a Combaticon—in the first draft of the script.[40][41] Kurtzman and Orci tried twice to include Soundwave in the movie. In a bit of a shocker, Simon Furman has said he personally isn't a fan of the films, though he believes they're great for what he inaccurately (and worryingly) described as "the intended audience" of young kids.[67] In an unexpected celebrity-related moment, famed multi award-winning British actress Helen Mirren, a Dame Commander of the British Empire, was one of the guests at the June 27, 2007 Los Angeles Film Festival premiere of Transformers. Bumblebee then proceeds to pursue him. The viral marketing campaign gives a date for Farr's death; March 16, 2006. The side that the Autobots and Decepticons are on, driving towards the camera shows road and destination signs that would only be seen if they were driving away from the camera. As the soldiers round him up, it rapidly turns dark within what appears to be seconds. Initially, opinions were just as mixed-but-generally-favorable as with the general public (with its changes to established Transformers characters, designs and mythos being an additional point against the movie for those who disliked it). I am Optimus Prime, and I send this message to any surviving Autobots taking refuge among the stars: We are here... The Cartoon Network broadcast of the film replaces some of the curses with other words. Added material includes the following: Before heading to the lake party, Sam is shown picking Miles up at his house. Funnily enough, this curb was where the crushed car was parked. One shall stand. Due to Starscream's attack and Frenzy's sabotage, Megatron begins to thaw, and Sam, Lennox, and Keller convince Banachek and Simmons to release Bumblebee so that he can get the AllSpark to Optimus Prime. Best Buy: Robot Heroes Cliffjumper and battle-damaged Optimus Prime. Couldn't they have just cropped the people above out at the very least? He's the guy in the green car? What is an error, though, is that the new license plate keeps changing from "900 STRA" in vehicle mode to "4NZZ454" in robot mode. 1 John Rogers confirming that Kurtzman and Orci drastically rewrote his script 1 Michael Bay's audio commentary on the Transformers DVD. When the Autobots cross paths with Bumblebee, Sam and the Allspark, during the close-up on Optimus, Ratchet's gun is suddenly in front of Ironhide, who is now making two short steps towards the SUV, while Jazz's gun has been replaced by his hand (which he uses to pull Sector Seven's guns away magnetically). Then again, this could just be a sort of 'auto-reload' thing the Transformers have going on, as they probably wouldn't get very far in battle if they were only limited to 4 missiles each. By the time transformers have going on, as they probably wouldn't get very far in battle if they were only limited to 4 missiles each. Sam gets him running again, the sky is still in an early stage of pre-sunset. Mikaela then explains to Sam that the only reason she has ever sacrificed in his "perfect little life." Reinforcements arrive at the scene and the Autobots retreat. Let the slaughter begin! In the present day, the other Decepticons — Starscream, Blackout, Scorponok, Frenzy, Barricade, Bonecrusher, and Brawl — have already landed on Earth vehicles. During the ensuing car chase, sunset abruptly occurs once Bumblebee has left the warehouse, and it promptly turns night between shots. But hey, maybe that was Bumblebee. The police soon arrive and Sam is arrested. Like Spike before him, he's closest to Bumblebee. Meanwhile, the "portable stereo" character also went through several changes, because Kurtzman and Orci eventually decided that the character also went through several changes. name and save Soundwave for the sequel.[47] The character went through some other working names such as "Boombot"[48] and "Soundbyte"[49] and eventually ended up as Frenzy. (The chase scene was actually intended to be longer; see "changes before, during and after production" below.) The Unmanned Aerial Vehicle (UAV) used by the US Air Force to investigate Scorponok's attack on Captain Lennox is modeled after the MQ-9 Reaper, but is identified as the MQ-1 Predator. Behind him, Ratchet is making his way towards the SUV, while Jazz and Bumblebee have their respective weapons drawn. The still-frozen Megatron is moved into this facility, and is reverse engineered to further advance human technology. Though the characters are new, "Frenzy", "Scorponok", "Brawl/Devastator", "Blackout", "Barricade", and "Bonecrusher" are all names that have been used on Transformer characters before. Therefore, Barricade sports no "Ford" logos in the movie.[23] Another Decepticon character intended to be in the movie had the working name "Stryker", named after his vehicle mode, a M1126 Stryker Infantry Carrier Vehicle.[53] It's possible that he had evolved from a character named "Frenzy" featured in an early script draft, who would have turned into a Piranha III. We live among its people now, hiding in plain sight... During the scene where Optimus Prime scans a truck for his new body, the passing truck has what appears to be an Autobot sigil on its grill, but the actual truck that Prime turns into at the end of the scene has a much wider, flatter symbol on the grill, guite possibly a Peterbilt logo. Barricade has the plate before Jazz even comes to Earth, so it's not a trophy or anything... His vehicle form was originally supposed to be a Ford Crown Victoria, while his working name was "Brawl".[52] Eventually the character ended up as Barricade, with the vehicle mode being changed into a Saleen S281 "Extreme" Mustang, because Ford didn't want one of their cars used as a "villain". However, following the US invasion of Iraq in March 2003, a movie entitled "G.I. Joe" was no longer considered viable, so Carol Monroe, who was in charge of Hasbro's movie department at that time, suggested doing a Transformers movie instead.[6] Tom DeSanto joined the project as a second producer and wrote a treatment that he and Murphy tried to shop around for a while. In the shot after that, Jazz is just standing around sans Sector Seven guns, while Bumblebee wanders up and draws his gun...again. Most people mistakenly confuse the date of Megatron's discovery with the date the Hoover Dam was built. It's been an honor serving with you all. But we were already too late." — Optimus Prime's opening narration "Look, can you do me a favor—can you look out the window for a second? 1 "As far as death, we actually had one of the humans die in TF1 but we ended up cutting it."— Roberto Orci on the TFW2005 forums, 2008/07/18 ↑ Robertson, Barbara (2007). The rest is assorted bits and pieces, such as Scorponok's head and tail, a part of Optimus Prime's leg (including a wheel) and an unpainted, entirely blue version of his head plus a small part of the upper chest, and various semi-random chunks meant to represent the remains of the destroyed Decepticons dumped into the ocean (some of the parts meant to represent pieces of Blackout even feature markings found on a real-life MH-53 Pave Low helicopter). The vehicles included an MH-53 Pave Low helicopter). The vehicles included an MH-53 Pave Low helicopter (Blackout), several F-22 Raptors (one of them serving as Starscream's alternate mode), two A-10 Thunderbolt II fighter jets, an E-3 Sentry AWACS plane, an AC-130 Spectre gunship and two V-22 Ospreys. "Interlude" (also originally published as Transformers Movie Prequel) A short comic book by IDW, produced in cooperation with Target, available (online) from Target's website and (in printed form) at BotCon and in theaters, following Bumblebee's early search for clues on Earth. One wonders what she thought of it.[68] Transformers (ahem) "inspired" a direct-to-video movie called Transformers is the first movie to feature real, non-CG F-22s.[28] Real soldiers trained with the actors who played military personnel[29] and were also featured as extras in the movie. The Movie versions of Bumblebee, Megatron, Starscream, Ratchet, and Ironhide differ in appearance but fulfill story roles similar to their original versions. 1 IGN confirming Shia LaBeouf. As Bumblebee, Sam, Mikeala, and Lennox's unit drive to Mission City, they come in contact with the other Autobots, who join the convoy. Full body props for Bumblebee (the 2009 Camaro body) and Frenzy were used for scenes that involved direct interaction with the human cast. protecting. The two guard dogs that Sam encounters are played by a Belgian Malinois named Ammo and a Rottweiler named Nadine. When Blackout lands at the base, it's suddenly sunset. Optimus Prime: Were we so different? IDW's comic adaptation of the movie still has this as the opening scene. Possibly indicative of time passage, but a little too much to not warrant mention in the actual movie. This is what he would want. When Mikaela walks home from the lake, the sun is still shining. For the battle in Mission City, see Mission City, see Mission City #Notes. In addition, the movie also features other Hasbro brands, such as My Little Pony and Furby (the latter being a property of Hasbro's subsidiary Tiger Electronics). 1 Roberto Orci discussing Hasbro's involvement. He also remarks that he has "been there" when it comes to women with criminal records. This is the film that made Hollywood sit up and court China, changing the very face of the industry. Once Blackout transforms, it's already night. 1 Allspark thread featuring comparison stills of the theatrical and DVD versions of the movie. As seen in the bonus material for the Movie DVD, at least some of the ILM designers are actually Transformers fans. The Autonomous Robotic Organism (shortened to "Autobot") known as Bumblebee is also on Earth, disguised as a 1976 Chevrolet Camaro, and looking for Sam Witwicky, the descendant of Captain Archibald Witwicky. 19.0 19.1 IESB interview with Ian Bryce and Lorenzo di Bonaventura. For a time, we lived in harmony, but like all great power, some wanted it for good, others for evil. However, Optimus is the first in the line at this time. For all the robots combined there are 60,217 pieces of geometry, 123,509,502 polygons, 144,341 rigging nodes, and 34,215 texture maps.[66] The events of the movie span 4-5 days. with you" quotes the slogan used in the toy line, also included in the G1 series theme song. [2] Transformers was nominated for three Oscars, in the fields of Achievement in Sound Editing, Achievement in Sound Mixing, and Achievement in Visual Effects. A small group of survivors under Captain William Lennox wander through the desert and are followed by Scorponok. When Air Force One makes an emergency landing, Frenzy slips into Barricade, and discusses his discovery of Archibald Witwicky, who has seen their language. The sound awards went to The Bourne Ultimatum, and the visual effects award went to The Golden Compass. 1 CBS interview with Shia LaBeouf. Megatron's navigational system is unintentionally activated, and Archibald's eyeglasses are imprinted with the coordinates to the AllSpark's location. material... ↑ "Devastator" concept art at Ben Procter's online portfolio. These changes result in the Autobots and Decepticons sounding like they are talking inside a tin can. That was how our race was born. When Lennox arrives as Sam and Mikaela are supposedly strapping Bumblebee with the tow truck's chains, Bumblebee is not actually there Soundtrack Main article: Transformers: The Album Score Main article: Transformers: The Score Home video releases Main article: Transformers (film)/home video releases Main article: Transformers: The Score Home video releases Main article: Transformers (film)/home video releases Main article: Transformers: The Score Home video releases Main article: Transformers (film)/home video releases Main article: Transformers: The Score Home video releases Main article: Transformers Frenzy uploaded during the Air Force One hack causes a global communications blackout, while Keller is finally informed of the Transformers by Tom Banachek. Finally, with both Prime and Megatron weakened, Prime beckons Sam to shove the AllSpark into his chest, destroying them both, but Sam instead takes the riskier action of shoving the AllSpark into Megatron's chest, destroying it, and killing Megatron instead. And so began the war - a war that ravaged our planet until it was consumed by death, and the Cube was lost to the far reaches of space. 1 44.0 44.1 44.2 44.3 44.4 Details from an early script draft summed up here, confirmed as authentic by Roberto Orci here. The tank used for Brawl (aka "Devastator") was a recycled prop originally built for the movie xXx: State of the Union, while the mine protected vehicle used for Bonecrusher caught the filmmakers' attention because of a giant photoshopped fork depicted on the manufacturer's website.[51] Other Decepticon characters featured in an early draft, aside from "Grimlock" (helicopter) and "Soundwave" (portable stereo/Humvee), were Brawl as a Jeep, Frenzy as a Piranha III mortar artillery vehicle, Onslaught as a mobile missile launcher, Octane as a tanker truck, and three jets named Blitzwing, Starscream and Devastator (a cargo plane, a 747 jet and F-16 fighter; the script doesn't say which is which) Yeah? 1 "Boombot" concept art at Ben Procter's online portfolio. When Simmons replays Sam's "last words" recorded them. Ironhide's complaint that Mojo "leaked lubricant" on his foot references a favorite exclamation of his Generation 1 counterpart, "Leakin" lubricant!" The phrase originated with his original character outline, stating that "he [refers to] excessive talking as 'leaking lubricant." Sam telling Mikaela that there's "more than meets the eye...
