Good game but some things that I think need to be fixed. I was playing once and crashed out of the world which was very annoying because I had to restart everything. I feel like the garden needs to be bigger and have more room to escape because once you get to the carrot growing area and grab the little thing you pick up to hide in that area when they and gummy bears come it is for all over. You don't stand a chance of breaking your ankles. Another thing that needs to be changed that I find disturbing is when I'm outside why am I hearing noises from inside. I think a lot can be updated, corrected, slightly expanded and improved. When he gets clues he writes them in a notebook, which is good, but another thing that should be written in a book is codes and recipes, because it's annoying to forget the found codes or recipes and they find to have to, again paper or something to make it easier when the player reads then it will be put in the small book automatically. Hopefully they will update it and I think it should be good but it depends. Hey it's autumn again, Evil Nun 2 is pretty good. I like how they got a real boy to do the player's voice, his name is Elliot Breton. I also love Tamara Ryan as the voice of the evil nun whose name is revealed in this game as Sister Madeline is actually revealed in Ice Scream 3. And I want Tamara to be the voice actress for my Mr. Crazy Shrimp cartoon that I when I'm older, she will voice the series as a guest. Also, poor Madeleine about losing Eliza's daughter, I suddenly liked the name Eliza, it's Lisa, but with an E in front. Maybe one day the Keplerians can make another Evil Nun game and bring Eliza's spirit back, maybe give her a voice, maybe L...could be Eliza's voice? God I really want to be the voice of all my favorite games and cartoons. And now a very good game! Everything is just amazing! Good night. ð I'm a big fan of the evil nun. When I found out there was a second one, I was so excited. The second evil nun doesn't quite disappoint, but it could have been better. I really like the way this game is made. It is raining very well. I like solving puzzles and collecting stories. The cut scenes are terrible and amazing. However, there are things I really don't like. Barley in darker mode makes it darker. I also really liked the coin system from the first game. I understand this is a different game, but maybe something like a coin system should be added. And another thing that sometimes it can be unfair. I know it must be a problem, but I just sit in the vent and wait for Gummy to leave. Maybe make him move around more so he doesn't stay in one room for too long. Plus, it's an amazing game. Keep working hard.
