The United States (United States) is almost completed. With Covid's pandemic who put people in quarantine this year, the video game industry has developed faster than ever, while games for mobile devices guide the trend. In this article, we mentioned the 10 best games of the Play Store 2020 with their general description. There is only one game of players in this list: you will probably not want to watch Publig Mobile or Free Fire. Although most games on this list are paid, you can download them on a third part like Apkpure and Play. Since then, the first 10 Games Genshin Impact 3 Mihoyo developer. Overall, it is a colorful adventure with an excellent combat system and tons of content to explore the world alone or in collaboration with friends. The weak point of peoplehin is that you must have a good phone or a good tablet to start it ... otherwise you have to play on a computer. 2 - RPG Bastion action generally focuses on gameplay and fight, but this is not the case with bastion. The first Supergiant Games title has acquired a huge reputation thanks to its history. The game takes place following a catastrophic event that devastated the city of Caelondia. The game bastion action part is rather chaotic and frantic, with the narrator's comment and an incredible soundtrack in the background. You will play the role of a child, a survivor in charge of rebuilding what has been lost. Collect the nuclei that once provided the city. 3 - Startw Valley is a farmer who plays the game in which you will deal with a farm with all the cattle and different crops. Leave your neighbors, explore the surrounding countries and secrets: there is even a dungeon that you can explore if you want a little action while you play. The gameplay of the Statew Valley Games is elegantly pixelated: you will not have to worry about taking Care. 4 - The Walking Dead.
