Bloons TD 5 is adorable and quirky, but there's an astonishing amount of content, tactical depth, and replayability to go along with the goofy weapons, helium-filled interlopers, and priceless monkey business. So this game is one of the most addicting and thought inducing games I have ever played on the phone. I am level 70something and the only thing that makes me quit is that I get to the point where I'm on round 260 and the rounds take too long. The multiplayer (co-op through Facebook) is complete garbage. If you get a notification, it disconnects. That is not the phone it is the game because I have an iPhone 6s and the person I try to play with has a galaxy 6 or 7 I can't remember. Anyways, you can't pause or exit for 1 second even just out of the app or phone lock and it's the most frustrating thing ever when you get to round 78 and you are about to start kicking things up and it quites you for absolutely no reason. It's the worst feeling in the world and extremely annoying/aggravating. If you guys can make this better, that would completely perfect the game and make it the very best game on mobile for a very very very long time. Thanks :) This is a very amazing game and super addictive if you're a strategist it's fun to come up with all kinds of different ways to be different levels and the many different maps and I also love how you can choose different maps with different difficulties as well and there's countless combinations of ways to work through this the only things that I hate about this game and many others that I play with are One you can't speak to your opponents. Number two when you select a map difficulty with the difficulty of the game itself no matter what you pick it send you into some game where anyone has ckicked one of the things that you have for instants I play on expert maps and impoppable, sometimes I also add in advanced maps but yet it will put me into a game playing on impoppable with an easy map this will decrease the reward from say \$1200 to \$360 monkey money, and it's just way too easy at that.. Now the only other thing that we have discussed between me and my friends that play this is it would be nice to be able to speed it up even more than the one time speed because these matches on impoppable go on for a long time so speeding it times 3 when ur fully set to win by round say 50 u won't have to wait till round 85 as the rounds get longer each round..
