So I hope this book will help answer many questions that interest me - and of course the question I hear most: +Wicca's statements were true? 14 Introduction to Wicca, a witch religion, has long been surrounded by secrets. Anyone who wanted to learn +Kunst gave him advice from books and articles. Wicca -Hexens does not translate much - and they are no longer looking for new members. Nowadays, however, people are increasingly dissatisfied with the traditional religions and are looking for a religion that respects both physical and spiritual reality and combines their way to the deity by magical methods.

One such religion is the cult of Wicca, whose spiritual roots can be found in the gray antiquity. He admires nature in the form of the goddess and the particular sense of nature's mysterious side makes this cult particularly attractive today. The disappointment was even greater because its apparent exclusivity and, until recently, the effective dissemination of information and policy caused this science to interested students. Wiccan cults are not fanatically looking for new members. It was probably higher than the largest Stolperstein, which his magic rituals and methods wanted to learn. I give upTo attract new members, because they do not like other religions, because it is a real form of divinity. Perhaps, however, taking into account the growing interest at a time when the Vicka cult finally went to the daylight of Aquarius. On May 15, who will accept: this speed is not a mild reaction to all the problems of our planets is very stylized,

only those facts that are available to this cult want to study. Until now, as you said, it was serious. This should be known to the private Wicca-hexe, especially the Hexen Kotto member. Secondly, it was a complete ritual of initiation. Therefore, it is not that happiness should know such a witch so that it is not favorable, because the consecration of Covil is considered an absolute dose for presenting the lesson. Many things have changed today. Our world, with it, develops rapidly, maybe too fast. Our ethics is no longer part of our past technical skills. Prepare this, and the war was threatened by peoples around the world. Even Vicka change, as well as its shortcomings take dust to become a curiosity of the era of disappearance.

She/her supporters must strictly organize her religion for the future if she/her future generations should say something. When a natural lover still had a religion, for example, Wicca-Cult, he should have said more like today, why is only one accident enough, how are we/to destroy SA? My book is different from many Vicca-Konventicen. Therefore, I wrote that anyone can practice this cult, wherever it is. This is not necessary for starters. The book is concentrated mainly only in practice, which will probably be difficult to find in another placeWicca's cult is a vibrant and contented religion that reconnects man with nature. It unites us with the Goddesses and God and thus with the universal energies that created everything. It is a personal and joyous hymn to life. And now it's finally available. 16 begins the theory of Chapter 1 Wiccan cults and shamanism becomes a + Ureliga sign. There were high cultures long before the first, even before our predecessors took the first steps on a long journey into the present. Shamans, men and women, therapists and rulers were at dawn. He practiced the magic, spoke with this spirit of nature, and was probably the first person to be created, discovered, used, and utilized through the knowledge of Sa-Ein. However, he knows power and is in the hands of this shaman in these gray times. The first shamans appeared, whose titles were food and resignation drink that forms, assuming a concentration of hallucinogenic substances and the like. With the help of these technologies, he found himself in a situation where he could communicate with the revealed spirits and God, plants and animals experience their completely new worlds. Of course, some of this knowledge was shared with their employees, but they also kept a lot for them. Knowing about his certainly doesn't make demons to the masses.

They then improved these technologies and gradually added / to magical rituals. So far, Shamen Support uses tools all over the world such as drums, rattles, mirror objects, music, songs and 17 dances. THEMore effectively they have combined natural sounds with artificial ones: his sighs of wind, the sea hawk, the thrill with rhythm, drums and rattles.

Such a ritual, performed on a dark and sung night, almost suppressed feelings and increased consciousness in the narrow confines of the world of nature in the widespread kingdom. For this reason, typical shamanic rituals occur.

From these primitive beginnings, magic and religion eventually developed, as did the Vika cult. Although his controversies about spirituals are based on that cult's era, the relationship to these ancient rituals also raises questions. The roots of Wicca are here and also bring the soul into its true and modern form in full state of consciousness, causing unity with the divine with it. Many techniques Wicca are shamelessly anis etti. Therefore, Wicca remains, as determined by Shamanic religion, and like Shamanism, here are just a few selected names of the chosen feelings in the hidden realms of inspiration. In today's WICCA cult, self-control and its use have been replaced by hallucinogens. It welcomes venues for liturgical chant, meditation, concentration of visualization, music, dance, prayer and ritual drama. Hence it comes to an alternative to Beusstsee to inform that on the right side of the Braciallen the rituals of the pubic aniseed BKEs are very similar. Here is a Beusteinform of +carefully chosen alternative, as these altered perception modes are not unnatural, but there is an alternative to the normal coating. In nature, as we are taught by the Wicca cult, there is a very wide range of multiple forms of consciousness that most people have never guessed.

Most magical shamanism reveals much to us about nature and religious experience and thus Vic 18. Rituals of consciousness expand the power of shamans and Wicca rituals open these possibilities and establish a connection with God and Goddess. Unlike many other religions, the worship of Wicca in divine sees nothing from the world. The goddess and God are in us and manifest themselves at the same time in nature. True versatility: there is nothing that God would cause. What is Divinity, like many other religions, except for polarization, and admire the double goddess and God. Therefore, the god of wicker worship has no room for cold, in a distant sky +. The current worship of Wicca is a multi -faceted religion and has a very personal spiritual system. That's why I can only tell this belief here and filter my experience. Another thing that Wicc teaches is that physical reality is only very possible. There it does not provide the highest level of reality. However, this spiritual world is not + pure for physical basics: the only difference between them is the dense physical world. The worship of Wicca also believes in reincarnation, like the Eastern religion, though with deviations. For example, we do not think that after death we were born only in human form or that before incarnation we were stones, trees, snails or birds. These creatures certainly have the shape of the soul, but it differs from our person. Reincarnation is created today by millions of people in the east and west, perhaps not because 19 help explain many questions.

For example, what happens after death?Do we remember things we haven't experienced in your current life? Why are we sometimes almost amazingly at some places or people, even though we have never seen them?

Of course, reincarnation training does not definitively answer these questions, but it does offer some valuable starting points. However, they should not only believe. Only through contemplation, meditation and self-expression can the Truth of this science recognize the truth. Next Chapter 9, +Die Spirals contains information about the problem on page 91. A perfect Wicca-Lehre habit is as likely as: you, the one you like, if no one is with it. Another major envelope of this Maxim formula is our way of thinking: Join and do no harm. For example, if you abuse your body, do it, or otherwise risk it, you are going against this simple moral order. Not just about your body's disability. This principle also ensures that you remain in one constitution in which you can set ambitious goals for the preservation and improvement of our world. Because love and concern for the drama of our planet Wicca plays a key role. Wicca is a religion guided by magic; He likes the way you HerageGendteses and more character than character. That the relationship between religion and magic is not as unusual as it seems at first glance: for example, Catholic priests use a form of magic if it is bread that has been dead for a long time in a transformed body. Even prayer, the current aid in all religions, is nothing but the ultimate connections with the divine in accordance with the technology of concentration. This concentration has reached a certain level, the energy becomes fast 20, which leads to the execution of the prayer. Therefore, there is nothing better than religious magic. Magic Bulls control natural energies, but often misunderstand them to achieve the desired effect.

The WICCA culture uses it/is as a tool to bless the ritual area or for betterment and peace. However, Vikka and Magic were often mixed up as they were interchangeable concepts. It is a false fundamental idea: The cult of WICCA is a religion that uses magic. Therefore, if you only practice magic, the WICCA cult is clearly not a good fit for you. Magic is not a technology with which we configure our desire to impose our will: another false foundational idea. Hypothesizing that it is with magic of amazing amounts that existed outside or cooking. However, magic is natural. You have a non-violent energy government with which the necessary changes can be made. Those who want to practice magic, eliminate paranormal phenomena or a distinct miraculous thought of thought, most witches do not believe in Vorbe-Baisse. Know, despite our great reverence for the Goddess and God, that our souls are free. We are in complete control and with it responsibility of our lives. We cannot be the same as an evil force, and this makes our faults and weaknesses responsible.

There is therefore no magic that defines our actions. Every day we make countless decisions that constantly affect our future and our lives. We take full responsibility for our reality and our past life. It is only when we deliberately consider it, our actions with the highest ideal and that our magic becomes Victa's goal, that the outlet and life wonderfully order and complete joy. Maybe it's a lieWiccan Cult Hazel: Freud-Pige 21 Union with Nature. The whole country to show us the divine energy. Fiore Prati, beaches and forested deserts are just our time.

When the Wiccan follows him, he enters - quite earthly and sacred of love and a Christian when he visits a church or cathedral. For a wiccan witch of nature, full of liturgical chant we/their secrets are missing.

We listen to the earth and we will know what is so desperately informing us about testing it. It is only when we are in intense contact with our relationship is interrupted by preaching. These are some of the most important principles of Wiccan worship. It has the true Wiccan principle that individual rituals and myths are secondary and only ultimately contribute to the acceptance and celebration of these ideals. In the third part, a ritual stone book was erected, which devoted its summary to the development of his rituals. Rituals are external, ephemeral and absurd forms and have served them in trouble. Change the ceremonies according to the mood. All that matters is to help him join the Divine. It does not connect with the physical world in favor of the spiritual or magical realm because the human only naturally occurs in the following realms: GIs have reasons because we are here on earth. Use power rituals to expand your consciousness and connect with all of creation. Free travel. Ancient expectations are in us and for us the power of the goddess and God. They love him with the wisdom and strength of Bevier. 22 Chapter 2 Divine religions are mental structures in which the center worships the divine stables. Likewise, the Wiccan cult was: it attributed the highest and incomprehensible divine power, the complete and source of the entire universe. HoweverBecause it's so hard, contact him, produce. Important help in this contact gives our distributors what we have like nature, like a goddess and God. Any division that has ever been worshiped on this planet can receive one of these prototypes.

Even the Gttertertpl team, which was created in history during various cultural courses, only Auffcherungen raised these two infinitives L. Every historical goddess, and every man of God ultimately has a different Wicca roots. Wicca-cult loves divinity as a dual nature, because he is in itself in a stopping nature. Virtually all the nature of this species is divided, and therefore suggests, even a sermon, understand two copies. In him/t goes, like a goddess and again God, like when he was really important like the mono and the sun, the rituals of the worship were still unjustified - they blew spontaneously, happily with him/this God. Late, then followed the sun and sprint seasons or went to the monthly rhythm of A - and the falling moon. The current Wicca-Hexen rituals are very similar to ancient rituals. You/they laways found a magical shorcut to division and everyone makes it a moment of nature. Wiccainer communicates quite freely with animals, plants and trees. You/they hear the energy of rock and sand and carry it from fossils that talk about this/their orginal beginning. Observing the God many vocals, everyday of heaven. Because divinity in Wicca-HexenMany of us are environmentally friendly, try it and actively protect nature from destruction. The goddess and God today do not exist no less than in the past, and we admire our rare planets to honor it. Divinity was the first to be the first, since spiritual predecessors stood ritually. Meanwhile, the energy standing behind them was the first long: you/they created us. These albums interpret these forces as God and the goddess to make it / before / yes cap. Like this Christian source in Europe, the Concist and its pagan religions, the old forces lived on - and pagan ceremonies. You/you all have become the same level with its stories, rituals and myths in IDEA-MONDO LES WICA-KULTES UNO. Believers no longer feel simply if she is the goddess / this and God worships such names and forms, and not to her, as a divine and anonymous nature. Others, on the other hand, precisely determine the absence of historical names and equipment, such as liberation, which benefits all compression. 24 As you say, Wicca-Kult, which is presented in this book, is new. And yet he relies on these old rituals and myths. He / is firmly in the religious root that nature woke people in us. I use nouns here/it +gott a +gttin instead of specific nouns, such as Tegame or Diana. However, if you obviously had freedom against certain deities, the rituals in Part III correspond to the corresponding names.While Auerwestlichen, a polytheist, has been adopted by religions or has been used by other deities since childhood, it leaves you to check the main idea of this book: divinity existed twice, as goddess and as God. Both have their history Corso, so many names find anonymous names in the end. Her/them/their appearance is always exactly as we imagine her/them because she/he represents all the deities that have never been there. Dea and God Almighty, creators of all visible and invisible existence. We can contact their elevators and communicate because part of us.

Goddess and God are the same that neither is very open, neither is more observed. Although some wiccan-anhager believers prefer a goddess and God is all-powerful, this is likely a reaction to centuries of patriarchal suppression of this revered religion: the feminine aspect is upright here. But religion, whose pendulum has only swung to the other extreme and only energy-oriented, useless woman, also unnaturally, loves the same man unilaterally. It perfectly balances both powers. Goddess and God stand on an equal side and complement each other. 25 Goddess Goddess Allmutter. He is the source of all fertilizers, the wisdom of boundless embrace and is adored. This Wiccan cult knows him as virgin, mother and boyfriend. These three aspects represent the three sides of the moon: the rising, full and waning moon.

This goddess also embodies an infinite field that, like her, rich and sleepy, drips into the earth: you/they live bear and abundance. But the life he has comes with the promise of death. Over thereBut not only in the darkness and haze failures, just forget, but the rest of the sorrow of physical life. He/is a form of existence in which we are among our incarnations. The great goddess is in fact nature, all of nature. She is a beautiful seductive old woman, a disastrous storm and a freshness of spring rain, stone and grave. Although this / unites the two aspects, the Vikkans-Vcals glorify the goddess primarily as a source of fertility, love and completeness and that her / their dark sides disappear. The goddess appears before us on the moon, always, always moving at sea and the fresh greenery of early spring. She/is the embodiment of fertility and love. The goddess also became the queen of heaven, Our Lady as divine sources, the universal matrix, the great mother and many other famous names. The cult of Vikki knows the many characters they admire: below it has teapots, a bowl, five flowers in a row, mirrors, molds, pearls, silver, emerald. Because the goddess on the ground, the sea and the moon claim, these creatures are classified as large quantities and differently. Rabbits were also born, so an owl, a cat, a dog, bats, a goose, a dolphin, a lion, a horse, a nettle, a scorpion, a spider and a bee of the holy goddess. The man has his long story through all things in the pictures: like his dogs, the wandering 26 hunters, like celestial gods, wandering in the sky and Sterninstaub from her/their heels drop how eternally fertile Mother, in as a weaver of life and death, as a weak and failed old visiting woman, and still in various forms in the waning moonlight. But if we remember it, it is everywhere, unchanging and eternal.

The sun illuminates our time and sets the rhythm of our lives in an eternal cycle in an eternal cycle in an eternal cycle. We can / it / all do not exist - for this reason it has become the sources of life. Its warmer departure from the seeds is and quickens the Earth in Erblchen after its frozen cold. God of men, guardian of wild animals. The horns, which are like follies, symbolize connection. There was probably a concern with hunting, although the first area, domestic animals were quite affected during the goddess's time. God's empire including virgin forests, hot dessents and wet mountains. Even these stars belong only to move away to dominate it. The annual green cycle that has become, tires and harvest, becomes the sun attributed to age. It is because of the European cult that Wicca still gets the solar festival, which is still in eight chapters, + die Jahreefsets, Force, 84 side, which is close to the discussion. This male god also identified himself in mature collections. Lives in 27 weeping grapes, Zo telebrate with the goddess and dominate them / her / him / is sexuality - a topic that no one hunts in the Wicca cult, again there. Sex simply belongs to life and because it also sacrifices, becoming something completely natural. It makes us wat, withdraws from the desire to ensure our kind survives - that is why it is important as a saint. Fine and Archbishop,God planted us here with the desire to ensure our kind guical survival. God is portrayed and admired by many symbols: among other things with sword, horns, a lance, a candle, a gold brass, a diamond, a sickle, an arrow, a magic wand, a trident and knife. These holy animals include the bull, the dog, the snake, the fish, the deer, the dragon, the wolf, the chalice, the eagle, the falcon, the shark and the lizard. In antiquity, God was considered heaven and the goddess and god, who stands out in the changing case of life or is enthusiastic about our "sweet" life. A spiritual door. However, this does not mean that we can simply move our questions. It w

We give ourselves this force in magic and ritual. Here Vicka also differs from most other religions. The ecumenical forces do not achieve ultimate priests or mediators, but also direct people. This makes Wicca a very satisfactory problem: we are in direct contact with our deities, we do not need priests, confessors or shamans. We are shamans. It is direct contact with the goddess and the absolute God for us. By following simple rituals, you will be able to establish such a deep relationship with the divine.

Put it on or put it on at night with the moon side facing you. If you can't see it, first imagine a silver full moon shining directly above your black night. Feel the moonlight on your skin, what it's like.

Focus on how it connects with your energies and form new patterns. Now she represents the goddess in any form. Call her, preferably one of her old names: Diana, Luna, Selena. Open your heart and mind in Goddessa Energy Moonlight posters. You need to rehearse this week every day, preferably at the same time. What is still missing is the parallel union with him that God establishes after rising in the morning to face the sun. If you have no other choice, go through a closed window as well, but outside, some work better. Absorb the energy of the sun. Think about God - he doesn't care how you imagine him. So he appeals to your imagination, representing a powerful, muscular warrior holding a spear in one hand, and in the other a child holding a grape from which dew flows. He sings of one of his old names, such as Cernunnos, Osiris, or Apollo. 29 If they don't want to imagine God, because for all of you, form is a limitation, you just open yourself up to these energies that are caused by the sun.

Even if the sky is overcast, its energies will contact you. For more information, see Chapter Eleven, "+_Exercises and Magical Techniques," beginning on page 101. Let nothing interfere with your D. In fact, there is no doubt about which country the myths come from, they are important to them for the models that are vili. Pi read, a family member raises a question. You will definitely see a little screening, but always a very complex knowledge of the two deities. He still has a God and a Goddess that is approaching in seven days. Then they interpret the practices: the two deities are stable and above us, we only have to open this consciousness. This is the secret of the teachings of Wicca: the Divine in us. Leaks in search of divinity in their/her nature. Look next to the trees, she is studying plants and flowers. In the flow of water there are energies of both divine currents, in a force that pulsates with an old oak, or the warmth of sun stones. Direct contact with these forceful efforts allows us to recognize the existence of divinity as long as the senses. She/now they are so big that they can temporarily or Durando build an altar or communion of God. A small table, two candles, a rather inner Serus and a bowl or leather for our offerings, such as flowers in the gardens, cereals, wine or milk seeds. 30 Goddess Candela Fiori God Canddel Reichergef donates the appearance of the sacraoria at the end of two candles of the sacraoria. This candle that remains represents a goddess who is a righteous god.

Often the two divine aspects are also different colors, such as: take a red candle for God and green for her / Elle / It Dea. These colors emphasize the American nature, the Wiccan cults, because the red and ancient green reflect the natural rhythm of life and death. Of course, he can also use other colors: yellow or gold for God and white or Argent for her/E DEA. Flazione has somethingDirected by candles and especially its container or peeling. Improve a vase with fresh flowers and add seasonal or personal items such as crystals, fossils and dried herbs. To improve a simple ritual, he has an offer before the sacrament. If he wants, he also regularly writes his sacrament for assigned visits; Immediately after it increases just before bedtime or after lunch. If there are candles for him, he will meet the goddess and God and communicate with them. It is true that this regular rhythm is not absolutely necessary, but leaves the relationship more intense and diverted. He likes it when he finally offers the sacrament of his time or changes the ground. If you enter a reason, no permanent bag is available, it is created every time you need it. Place the ritual objects in the Ed Sacaria ritual. Its simplicityIt is easily fooled by its/its effectiveness. Goddess and God are very real, there are 32 essences. You/she owns all power, creates the universe. Described along the way, the ritual meeting with you, our nature will change forever. And it brings new hope for our planet and our existence. If this ritual seems too formalized, change it in yourself/you. Follow your own. What is the basic idea of this book: find your way.

Don't follow him blindly/he thinks just because I got him on paper. Our feet never adapt to another's feet. In the same way, Wicca-Culct thoughts do not penetrate a monotheistic religion with a horizon of thought that has long since become political or profitable institutions. Infinity is revealed by the divinity of the Wiccanera adventure. They discover each other everywhere. The last is preparation, as it is called before shame. All nature sings of the mystery of the goddess who has continually proves himself to be our breath and inspiration. We rarely hear them. Don't worry about him that others might tell him if I knew you were raising a goddess with twenty million. The second's attitude towards her religion is not here. If you still want to hide your experience from others, not out of fear or embarrassment, but just because we all go it alone, do it without regret. Not everyone is open to the Wicca cult. Some people even believe that we, and practically everyone who does not watch their ceremonies and teachings, love the devil. In the natural unconscious, we say, Satan is too sensible. These people themselves cannotHe represents another religion in a way that he confess, supports and fills. When we adore God and the goddess because she / her logic 33 actually deny this property and serves with her, finally Satan, the incarnation of all negativity and evil. The Wicca highlights its own religion of this absolutism.

It is perhaps the greatest and most dangerous human vanity: believe that religion is the only means of divinity. How many blood and how many saints and cruel wars have you liked so far? These misunderstandings result from the premise that there is an absolutely clean and positive nature. H. God. If he really combines all positive, he must give him the opposite and absolutely negative nature: Satan. Where would the dark sides come from, if not life? Wicca worship indicates a slightly different idea. We see both brilliant and dark aspects of the goddess and God. All nature consists of contrasts and this polarization is also restored in us. Our subconscious contains the darkest and most brilliant skills of a person. However, our ability to overcome destructive impulses and transforming destructive energy into a positive importance. These skills only protect us from him, mass murderers and standing psychopaths.

This is why he is right: God and the goddess have a dark Lati. But that shouldn't be afraid.

Let's look at its dark side again and more precisely: a ruthless flood which destroys so much gives a rich country from which new plants can develop. Even death helps to live in a deeper understanding of life, and the deceased gives loneliness. The properties and drawbacks are often identical, they are not only a rare view. It comes from everything that is bad, it's also somethingEach religion has its own law and every believer in its religion is the truth Geotenbarte. But it will never become a religion, but a prophet or a savior capable of convincing all six billion people. 34 Everyone must find their own way to the divinity - this is the case of the wiccan cult. However, they underline the positive sides of the divinities. This gives us a perspective for our spiritual research of higher possibilities of our existence. But even when death, destruction, pain, pain and anger decide our lives - which will inevitably happen - we can trust God and the goddess.

Because these dark sides are also part of it. We do not need a devil to attribute this natural aspect of life, and we need a white like snow, pure as the flower of God to protect us from the dark side of life, the devil. When you really understand the goddess and God, you also reach a deeper understanding of life itself. Entrambe the spheres are closely connected. Live your earthly life to the fullest, but also the process of opening of its spiritual aspects.

The physical and spiritual aspects of life are simply several reflections of the same matter. I was still asked the question: +was there an attitude towards life?

Although he often laughed at this question, it is: he has the answer to all the other questions and does not give any religion or philosophical system that does not answer them. Each unit can find the answer in living and observing life at the same time. Although not all people get the same answers, they can discuss their confusion. The goddess and the god are magnificently resembled nature and at the same time become obscure. We do not adore nature as it is. something of usShe also talks about it and the goddess of God for everyone Anbeth. Let's not pass against them on the streets. We work and collaborate with them to make a better world. And that's why Wicca is equally called as religion. 35 chapter 3 magic everyone knows that witches are involved in magic. Perhaps there are false thoughts on the magic of his business, but those who work with magic would not be controversial. In fact, magic is one of the currerstones of the cult of Wicca; However, what is not entirely extraordinary is nothing. In autumn, they think strongly of every religion, where faith begins and magic begins. However, Wicca-Kult Magic has a special role. Driving our life and our planet is destroyed, the energy is sold. The magic spell. S, we work with religious power, the goddess and the power of God, but so close to them. We call with magic and its ritual calls, see its presence and create a connection between us and them. Magic is mainly a religious Wicca-Kult.

In many of my books I have tried to define what magic really is, a very difficult task. My new and perhaps more appropriate definition: natural energy bodies that go beyond what is necessary to achieve change. There are three main sources of this energy: your personal power such as Erdkraft and Divine Power.

This personal power is the essential energy that justifies our abilities of existence. She/He finds our body. Let's take this lunar and sunny energy, water and food and put Mr in motion, like sex and so on A new child free of charge.

Although it is exhausted by this power, even if we will be popular with immediate inhalation of 36, even immediately outdoors. This personal strength becomes active magic when the goal is loaded, in an organized goal and finally part. Earth's power on our planet and its natural products. Stones, trees, wind, water flames, crystals and perfumes have unique forces that during ritual and magically direct entry: for example in a quartz crystal that immerses into salted water to clean it together with his / this body, he touches the patient, which increases his healing energy; Or at the one who sprayed the herbs on the candle, with one to create special magical desires. I rub the body with magical oil to make internal changes. The divine demonstration is the personal strength and power of Erdkraft, the energy that exists in the goddess and in God. It is a vital force, universal engines that create everything. Wicca-Hexens Eversants Dea and God bless Wirkkraft with your magic. The ritual combines the power of the wand with the divine and is looking for fulfillment. Its magical structure is extremely religious. The magic of a relational process.

Only the energy, the power of the universal force, the goddess, God and Erdenenir should be harmoniously unified to offer the improvement of the life and protection of the country. The magical method with which every person is responsible for absolute life in the palm. The magic, unlike ordinary people, is nothing miraculous. I assure you that she is an ancient occult method - Vielleicht has experienced so much defamation and misunderstanding over the thousands of years. After all, but a magical natural procedure that forces that he / she does not discover or cataloged through them / his science.

But it does not require them to be valuable. Not even 37 scientists would tell him everything that can be known about our universe. They would know everything, it would happen so scientific that everyone, more, exists. One day, the magical forces of Wicca-Hexens must discover scientifically and lose according to its secrets. It hypnotizes and comes partly from psychology and soon it was in the area of repetition of extra -sensory perception. Magnetism has also been a long -established part of magic for a long time, preceded by / from Science + Entdeckt. However, magnets also become modern spells and rituals, and such forces, in particular, evoke archaic feeling. For once, play with two magnets and observe the invisible forces of attraction and repellent in their seemingly miraculous action. Magic is the same. Even if not, it has a rational structure, another base that deals with the facts of reality, its/its logic and its/its/their rules. That we do not fully understand it is not said that it does not exist. The opposite of magic to a very effective tool, if it happens, will cause the necessary changes.

Do not spoil the illusion. Magic and actually made works - the fact that we do not leave Wegerklren.

It should be subjected to a personal example, a typical candlestick. Mistake, I owe a barn phone account, that's not money. My magic meta, money for them/ni, take note. I decide to ritual, concentrate on the fact that my concentration and my visualization, you/they will also read him the eleventh chapter + _bungen and magic, from p. 101. So I dig my magic accessories and remove green candles, patchelil, herbal collection, parchment, and it becomes green ink. On my altar, I set fire to the goddess and 38 deities and cursed her presence without a word.

Then I lit the charcoal and beamed them with cinnamon and sage, two magical plants that are rich. Now he draws a phone on paper and clearly writes the crowd. At first I didn't deal with the letter on the piece of paper, but with the account itself. I then drew a check rectangle which symbolizes my control over him/her and her with a large x Quar - cer -te/It /she cancelled. You/it really goes on, what really happens with the payments. Now I see a fully paid invoice. For example, I could pay +like a stamp to draw a picture. And visualizers mean to sign, you see that the amount for the bill is enough, and I represent me to pay the bill. Then I clean the green candle as on my own, in fact from the ends to the middle, with which I say similar words: I swear by the Mother goddess and the power of the Father of God; I have cursed the forces of earth, air, fire and water; I curse the sun, the moon and the star, I/him/es, give methods and pay this bill. While I have this renderer, I actually put the candle in the gap right behind the sketch. Then I sprinkle the herbs on the candle, and in these words I imagine how it has the energy I need to achieve my goal: wisdom, Jupiter's Hall, my magic gives me. 39 from him, still with my clear portrait before my eyes, Keep the candle and allow the energy to integrate into your lights in the portrait. I leave a candle for ten or fifteen minutes or even longer, never afterwards, no matter how long I grew up through visualization. Now I see as clearly as a candle that the energy that I have designed for a portrait is uplifting.

I see how you/her herbs are framed with candle obstacles and how the herbs, candles, chicks and drawings move personal flame energy and my magical meta reality with my streams.

When I photograph all of this, I adapt him/her almonds and throw a burning card for something in a small jerk near my altar. Finally the candles burn and he now knows his arrival place for the ritual. A few days later I may suddenly find a week when I find another financial house that pays the bill in the face of the situation. How does it all work?

From the moment I decide to deal with magic, I am miraculous. This idea alone shifts my personal strength. During the entire process-canceling tools, creating an account, lighting and visualizing a candle-I activate and use these energies through my after-magic needs. With the ritual, I put these energies into a candle. And when I finally burn out, this energy becomes free and compensates for my magical desire to fill up with the account library. It is really difficult to say why everything works exactly. But of course it works. But the exact civil servant does not understand success; We have to do it/she can apply it. You are probably not even you are not even electric experts. However, it still knows because they prepare it on the grill40 units of toasted bread. So with the magic: we approach, so to speak, energy sources A, which then continue in and around us through the Cruise and through the Cruise and through the Cruise and flowers. Even popular magical gestures, music, ball and trance, astral projection, meditation, concentration and visualization are very popular. We also have various and endless plants. Some simply insert crystals, herbs or symbols into the GI, others however use alloys to support different hand positions and create new systems. But all these systems are in the public domain. In my books I focus on discovering the elements, crystals and herbs. Here I describe Runa Amica, a typical example of a magical and closed system that is well connected to other systems. But all these systems are designed for the success of unnecessary magic. On the contrary, those who don't play another horn with the magic runners just don't happen.

We also find true magical power within us - in our relationship with the Divine. Whatever magical system you use, this is what I use: the key is to focus your personal abilities on the desired effect and then release them. His powers prevent the opening of the goddess and only God. Magic is a very religious society in which we join our God in order to improve our lives and the world. For our final magical understanding, that magic is a positive practice. Wiccan never became destructiveor with magic a. Magical powers are caused by the Goddess and God invoked at the end, negatively on the card. Black magic is a metaphysical insult to Wiccin, Humanite, Earth, Goddess, God and the universe itself. What effects are easily registered. Magical powers are his life energies. Anyone can practice magic within a religious context or the outside world. If you pair off spontaneously, he presents it with words, or relies on a collapse of gestures, use it. And when he can't find a ritual that promises them, he changes. He does not need a poetic work, too dense or choreography thirty incense bearers, thirteen high priest singers influence the purpose. Also has self-confidence. If you want to learn magic, then definitely practice! Many are afraid of themselves. She, according to Anonymous, was always warned about the dangers of the magical state.

You did not drive a dollar -Rorn: danger crosses the road - but only if you are wrong. It's the only way to know that the path actually meets. Do it without fear, if her love loves magic, she is never in danger. Ask the Goddess and God to protect her and her from the secrets of magic that are too visible. He asks for stones and plants, and the secret of their price powers -smoothly. Read what the fingers are doing. That which cannot be adapted or interfered with is thrown safely on board. Learn through your hands-on experience. Goddess and God bless all he needs. 42 CHAPTER 4 Magical Tools for Wicca and Pi Cult UseSome magical tools of his rituals. They curse in God's presence, protecting against negative forces and channeling energy through our touch and willpower. Some of these magical tools, such as brooms, kettles, and wands, have their place in the ideas we create of witches.

That the disclosure of fairy tales and sweet cartoons in the early Kinderjahren taught us that magical logs boil in pots and a magic wand can put everything in a positive direction. But hardly anyone really knows the immense power of these tools and the deep, symbolic meanings behind them. You must purchase some of these tools if you want to practice the cult of Wicca. Look for antiques at auctions, thrift stores, flea markets. Or write to the relative suppliers; You can find addresses, for example, online or in books on the subject. Finding such magical equipment is not always eas, but it remember with im - the energy and strength you give them. +Nature doesn't have much power from these objects magical power has a long history. Ancient Mexico was already admired by the divine witch Tlazelteotle, who appears on the broomstick she rode. The Chinese also know a broom goddess who brings good weather in rainy weather. The idea of \u00ed vot be verted, is valid in magic and magic and weed with the loving witches they actually named. The very different shapes and exotic materials it is made of make it a very interesting hobby. Devas You/They build their magical brooms however they want, so try the old magical combination of ash wand, whip, and scythe. This ash is a protection, a scourge for purification and a shepherd that influences the Holy Goddess. In fact, however, any branch of a tree or shrub can be used as a thistle; Even a small broom with quite firs. But be careful with him, that if you take the branch, the tree will thank you for the sacrifices. Some words help her find herbal rituals in the standing stone ritual book (opposite) 137. In American slave-gypsy marriages, the bride often jumped on a broomstick or Wicca-Trauungen. A broom with a lot of magic turns into magic that cleans the area or begins to protect one's own apartment. They stand on the threshold, under the bed, above the threshold or on built-in doors. Like any magical tool, a broom should be used for this purpose. If you buy a broom, it is better not to be flat, but round. 45 Magic Wand The Magic Wand symbolically represents the element of air, the holy God, and is one of the greatest magical tools. It has been a magical place for religious rituals for thousands of years and usually serves as an invocation to the Goddess and God.Instead, she transforms and uses it to control energies, magic symbols or circles on the ground, to draw and all the dangers, to show what is in the palm or the hand of this witch WorldView . You can also do a broth in a blender with. Many traditional woods become a by-product of its use, under pastures, elderberries, oak, apple tree, hazelnut, cherry, etc. Some wiccans sculpt it in wood from the elbow to the fingertips. long. But this is optional. Any modestly straight wood can be used, even the wooden blocks on the construction market.

Seriously, I saw beautifully sculpted baguettes and painted by Cos Lumber. NEW-ET-KULTUR E-Industrie, who is running with him, has magically helped to find a new meaning. Today, you can get beautiful creative creations in all sizes and ranges of price, sterling money with quartz crystal. These chopsticks were also left without any other for Verwen by Wicca-Ritual 46, although the wooden baguettes clearly have a longer tradition. Abandon the search for the right baguette, but do not add to stress - you will already find one. I also have to start my +Wicca-Career with Lakritzwurzel as a stick that I use and get good results. He/she can forcefully stem in all directions and a lot of energy. Look for what you probably feel in the same way about it. The Priorgef incense burrs in a censer - or incense pot; It can be any type of container that goes to work, so the simple Seemuschel. During Wicca-Ritual 46, although they recommend, just like incense does, preventing skin cracking. Ruchstebchen or Odent can also be salted in the form in which it is placed above. The case of incense in rituals and magic is an art for him. If not Ruperwerk hey recommend, just trust you in truition and creativity and find the right mix. They can move in the form of small bars, protect ET or bones, used. Pi Wiccan devotees, however, prefer raw or granulated incense set from the Esoteric Specialist Store. Which variety will choose, it remains clear that it will remain free. For cans + belts of magical rituals, he in a steamy spin from Manifesties. Sometimes we see a same god and goddess. The kettle is often at the center of the ritual. In spring it is sometimes filled with fresh water and flowers, and in winter a fire can be turned on to symbolize all the sunlight and the warmth (God) which is reborn from the teapot (goddess) - a thought that crosses an ancient myth of the village , after which I was born God of winter, in the summer he finds his maturity and finally he dies after the last harvest, we will talk about it more in chapter eight, +the annual parties - days of days of days strength, from 84. Ideally - Cace, the cauldron should be iron, place on three legs and have a convex shape. The sorcerers are very connected and even the little ones must be sought; However, the research is usually rewarded. First of all, if you have problems, do not give up too quickly to the organization of the teapot: you will surely find it. Ask a little help from the goddess and, for God, it will not yet hurt, sometimes even the boxes bring vases of flowers: ask for it. It is - before it made it available - in all sizes, a few centimeters in a package with gigantic monsters per meter. You can also use the kettle to predict. I fill it with water and see its ghost black drain. Of course, you can also be known in the production of Magic Weave. However, remember that preparing the content of a large pot will require a great fire and a lot of patience. Most of the pans and Wiccan are used today.

The magical knife of Atama has an ancient history. However, it is not customary to limit Vikkan cult, but rather control the use of energies issued through rites and magic. It also becomes a rather rare use of 49 to invoke God, and once again the knife is more likelycommand and control of troops. However, we prefer that the Goddess and God pray in her/his presence. It is usually a dull double-edged knife with a black or dark handle. When used with energy manipulation rituals, the hold absorbs some of that energy; Not much, but someone might come back to this later. Sometimes the energy remains even in the blade itself. In mythical literature, there are many stories of swords with magical properties or names - and swords, after all, are nothing but great knives. Sometimes it becomes our sword in Wiccan rituals. It has the same functions as a knife due to the rituals of its size, but in legal national structures. Her/his engraving on the knife is Wiccan witches, a magical symbol; However, there is no dose. As with most things, the knife first gets magical tools with your application and touch.

However, they can clearly engrave words, symbols, or runes into the blade or hilt if you wish. Due to its powerful symbolism, the knife is associated with the fire element as a Vernde 50 Knaw tool. His/her phallic form links him to God with a white knife-knife with a white knife, which becomes not a ritual, magical act, but a simple knife for practical purposes. They can carve with their carvings, magical plants, candle symbols, wood, sound or wax engraving, or tau ritual, just for carving. The white handle is used after the best distinction of the ritual knife. Some WICCA traditions state that white knives can only start inside the magic circle. This closet his/her benefit is clearly strong alone. Personally, my man, far beyond +healers who can use it, as long as someone uses it only for ritual purposes. So they couldCut it in the garden and flowers on the altar. The quartz crystal ball is fashionable today, but the crystal ball is an ancient magic medicine. Therefore, they have much more crystal balls than are offered on the market today made of glass, glass and even plastic. True quartz can be seen at a high price by cooling the material, unevenness and incorporation into the quartz. This crystal is traditionally used in the art of fortune telling. The fortune telling. The fortune telling. The fortune telling. The fordedess. The crystal ball and contains the necessary information. In the case of Wicca-Rteule, the ball sometimes finds 51 on the altar. Its round shape predisposes - like everything round - as a symbol of the Goddess.

The crystal ball can also be used to obtain or store energy for messages from God that are released through rituals. First life can also be found on a ball, goddess portraits or in Vickav caves. The crystal ball is a magical item and a divine fence - if you found it, you should like it. If you want to increase your medial abilities, you will find crystal sports in the moonlight or with the cool regular tributaries of the Baif. Therefore, a crystal ball is also recommended as the perfect vessel for the full moon ritual. The bowl is actually nothing more than a teapot on a leg. It symbolizes the goddess and her fertility and belongs to the elements of water. You can put it on an altar filled with water and even keep ritual drinks in it.A well-deserved ritual. 52 PU MAG consists of almost every possible material: for example, silver, brass, gold, silver, wood, wax or sound, decorated with some symbols. It is basically a liberal rite, but it also includes rituals as well as prayer formulas, runes and magical laws.

These ritual liberals sometimes become the initiators of the new iteration of Wicca-Hexen. Mostly written by individual witches. Be skeptical if you find yourself in other books about initial testing and generation-to-generation sufficient conditions.
