No 2 - Take W - Choose a card to unlock the stunning, the restoration of mana and slowly. First - Work towards your Everfrost with a lost chapter for Mana Sustain. Tips and Tricks Striked Deck grants Bä 'Nus's attack speed; So use this to interleave skills with auto attacks to maximize your DPS - especially when you have thief lich. Damage to your opponent in an attack. Destiny can be a good escape tool, especially if your enemy is not available. A weak choice, probably needing championships, about difficulties, this is a moderate difficulty playing champion for new players in League of Legends. Help it to cause motifical damage, you will be focusing on the construction of items that maximize your damage caused by the Champion skill kit brust. The twisted destination of the gameplay needs to be played very carefully in the game's use, as it is easily locked and beaten. Be ready with a gold card for when your jungler is looking for and is aware of the different options you have with your card all the time. No 1 - Take and - Stacked deck, for additional and rifter damage. Order of initial skill and boots, while your choices can differ according to the way the game advances, the priority of the destination of distorted destination is: r-> q-> w-> and seventies of summons these are the most typically typical call sins taken by the destination distorted in this role. The best moto item for the twisted destination you will build is the storm of Luden, followed by the purchase of shoes from a wizard. You can extend the range of destination by placing your cursor on a wall, halfway. He does not have the best potential of 1 vs 1, but if you like to wander and help your team, he is the favorite champion for you.
