*Looking to really stretch beyond the ordinary? Forced connections is a powerful creativity tool that helps to break free of the limits of logical thinking!*

## How to force connections

- 1 Randomly pick a stimulus unrelated to the challenge—an object, a toy, a picture.
- 2 Make a list of at least five attributes of the stimulus (*What does it make you think of? What do you see? What are your associations?*).
- 3 For each attribute, force at least two idea connections from that attribute to the challenge.
- 4 Repeat!

## When to force connections

- To help get unstuck when generating ideas;
- To shift thinking in new directions;
- To generate really wild and unusual options.
