Maybe it's the largest view size that usual, or maybe it's the way the magnificent colors are organized, but once you're addicted there's no back back. Pixabay LicenÅsa/Hans/Pixabay Wallpapers Wallpapers one of the reasons of Wide Wallpapers ÅÅ one of the most popular places to find HD backgrounds: accumulates images since a long time ago. Now you can get lost among thousands of images in each category, including a huge collection of wallpapers related to anime, video games and movie celebrities. Pixabay License/nastena94-940/Pixabay WallhavenEndlessly scrollable. Wallhaven Å another place where the demand for wall wallpapers is half the fun. Finding the perfect image means either looking for it or just seeing where your curiosity takes you.CCO/kleinAlexis/Pixabay Desktop Besides having a friendly interface and a lot of wall undone, Desktoppr has made its name due to its social-media inclinations. You can follow other image posters. When you load a new HD wallpaper, you will know immediately.Pixabay License/FirmBee/Pixabay Desktop Nexus This site may not have the most attractive user interface, but its hd wallpaper content volume is more than rewarding. Everything on the Desktop Nexus is loaded and shared by other users, so you can expect a huge variety of images of tendon, from the artistic and chic to the strange and fantastic.Pixabay License/Sterjo/Pixabay MORE THAN QUESTIONSANSWERED.NET The 720P video capabilities of the iPhone 4 are fantastic, calling into question the need for a video camera, but there is a boring limitation. You can't charge HD videos wirelessly. The best camera is you have with you, so I carry a very nice dot and image everywhere.ÅÅRead plus This obstacle really makes sense for 3G. Many users could accidentally burn from their AT&T data caps by carrying 720P clips. But iOS4 also m has the same restrictions for wi-fi charging, which nonsense. Pixelpipe a free application that will load the photos and images in total resolution for "more than 100 supported destinations" Virtually any social social the excessively sharing service of blogs you could use seems to be compatible. And may even load your files in the background while you check your e-mail or something. Steve Jobs said (in one of these fan mail conversations) that the iPhone would be loaded "by air rea" in the "future" But for those who prefer the future to come today, Pixelpipe sounds like a solution just read, even if we hear that the application is still swallowing some bugs. [Pixelp via TUAW]UPDATE: Another excellent way to circumvent the wireless download limits use the Dropbox app, although, as I understand it, it still lengthens the video. Just make sure you put the quality to a high level if you try it.
